

Leading the Industry in AIRHEATER PERFORMANCE, RELIABILITY, AND AVAILABILITY

Is your fuel cost continuing to rise? Is air leakage becoming a problem? Are you constantly increasing fan horsepower, just to maintain status quo? If you answered yes to any of these questions you must consider modernizing your airheater. Get ahead of your competition by introducing Paragon Airheater Technologies to your plant. Paragon is the fastest growing manufacturer of high performance seals, basketed elements and replacement parts for rotary, regenerative airheaters; learn more about how Paragon products will help increase your plant performance by calling us or visiting us on the web at www.paragonairheater.com.
